PROFILE SUMMARY

Driven SOC Analyst with hands-on experience in threat detection and log analysis through self-developed and online labs. Proficient in SIEM tools (Splunk, ELK Stack) and skilled in Linux, Windows, and Network Security. Experienced in C/C++, Python, and PowerShell scripting. Eager to contribute to a collaborative SOC, grow professionally, and tackle challenges for organizational success.

EDUCATION

2024 - 2026
PANIMALAR ENGINEERING COLLEGE
• M.E CSE 8.8

2020 - 2024
SRM VALLIAMMAI ENGINEERING COLLEGE
• B.E CSE 8.3

2018 - 2020
SKNS PMC Vivekananda Vidyalaya
• HSC 92%

SKILLS

- ELK Stack | Splunk (SIEM)
- Windows Internals
- Network Fundamentals
- Incident Investigation
- MITRE ATT&CK Framework
- Programming Language : C++, Python, Powershell

LANGUAGES

- Tamil
- English
- Korean

PROJECT EXPERIENCE

Elastic SIEM Home Lab & Secure Log Ingestion (ELK Stack | Ubuntu | Windows | SSL/TLS)

- Configured and deployed Elastic SIEM (ELK Stack) on Ubuntu, integrating with Winlogbeat on Windows endpoints for real-time log ingestion.
- Implemented two-way SSL/TLS encryption between SIEM and endpoints, ensuring secure log transmission.
- Optimized log pipelines for centralized monitoring, threat detection, and SIEM rule tuning, improving detection efficiency by 20%.

Phishing Analysis

[Incident Report](#)

- Analyzed phishing emails using Thunderbird (.eml viewer) and header analysis to detect spoofing.
- Investigated SPF, DKIM, DMARC, and ARC failures to identify sender impersonation.
- Traced Received headers to determine true email origin and relay abuse.
- Identified malicious URLs/IPs delivering executable payloads disguised as invoices.
- Mapped attacks to MITRE ATT&CK (T1566, T1204) and assessed incident severity.
- Documented IOCs and recommended SOC containment and blocking actions.
